Release Date: March 2010

Introducing Total Print Supplies at IPEX

A must see at IPEX this year will be the newly launched **Total Print Supplies (TPS) offering from PaperlinX (Hall 6 C518A)** available to customers of The Paper Company and the Robert Horne Group. TPS represents a complementary addition to traditional paper merchanting by offering an extensive range of pre-press products, blankets, press chemicals, inks, oil based varnishes, coatings and sundries – everything a business needs to produce exceptional print results.

TPS will be demonstrating that paper merchants are ideally positioned to supply a wide range of print room consumables to print businesses across the UK. Their ability and commitment to provide specialist advice on the right products will be undeniable after a visit to the stand. TPS will be combining this extensive expertise with their national logistics capability to give customers the best solutions delivered to their door next day along with regular paper supplies.

Steve Brading, PaperlinX Business Development Director explains “*Total Print Supplies provides total peace of mind from a print production perspective by giving customers the confidence of working with a secure and dependable national supplier. Amongst the products that TPS will stock are Agfa’s:Azura and Lithostar plates, Rollin blankets and inks manufactured by Sun Chemical.*”

Steve concludes “*Over 200 Printers are already seeing the financial and logistical benefits of bundling their paper with their litho consumables requirements. So if you have any pre-conceived ideas about a paper merchant stocking printing consumables come along to the TPS stand and find out for yourself. Be reassured that we have considered everything from procurement, supply, production and most crucially of all, have invested heavily in technical expertise to provide experienced customer service and advice.*”

Printers visiting IPEX will see a new range of Total Print Supplies products in Hall 6 C518A or visit www.totalprintsupplies.co.uk
