

Perhaps the most comprehensive choice of press supplies and consumables you'll find anywhere. All sourced for their performance, quality and value for money.

From cleaning systems and solvents to anti-set additives and drying powders, **TPS** provides you with a one-stop shop for all the supplies you need. Plus the technical advice and support to help you get the maximum benefit from them.

Sprayway

Various Sprayway products for the modern printing business including cleansing, lubricating, silicone, anti-skin and anti-static sprays.

TPS Crazy Clean All Purpose Cleaner

Sprayway's No. 31 Crazy Clean All Purpose Cleaner is ideal for most common cleaning requirements. Spray on and wipe off for clean surfaces.

TPS Formula No. 40 Glass Cleaner

Formula No. 40 is versatile and can be used on copiers, camera lenses, photographic negatives and assorted reprographics equipment.

TPS RD 90 Industrial Spray Lubricant

For use on all metal parts in the printing works where lubrication or corrosion protection are required. Can also be used for rapid removal of rust and corrosion. RD 90 gives protection by displacing moisture and forming a thin film so that parts can move without difficulty. Does not contain silicones and does not contaminate inks, plastics, rubber or fabrics.

TPS Silicone Spray

Silicone-based lubricating spray. Sprayway's No. 946 Silicone Spray makes rough surfaces slide more easily and protects equipment.

TPS Ink Anti-Skin No Wash-Up

No Wash-Up Spray for avoiding skin formation in the machine (ink fountain and ink roller) and in ink cans.

Before machine shutdowns: spray on to the ink rollers of the machine as it slowly runs down (in letterpress printing during the last 8-10 slide movements, in offset printing during the last 15 - 20 revolutions of the rollers). Then spray the colour fountain of the stationary machine and, if possible, the underside of its duct roller. Finally turn the hand wheel of the ink fountain roller two or three times by hand.

TPS Anti-Static Spray

Spray to prevent static build up. No. 955 prevents computer failure by eliminating static electricity. This product is also suitable for use on scanners and electronic image processing equipment.

Spray Powders

TPS Premium Spray Powders are based upon a high quality vegetable grain that assures a smooth finish and high gloss.

Type	Application	Paper Weight	Micron Size	Pack Size
TPS Premium Fine	Paper	Up to 200 g/m ²	15 - 25 micron	3.5kg
TPS Premium Medium	Paper/ Cartonboard	200 - 350 g/m ²	30 - 35 micron	3.5kg
TPS Premium Coarse	Paper/ Cartonboard	Up to 600 g/m ²	50 - 60 micron	3.5kg
TPS Ideal	Paper	80 - 170 g/m ²	25 - 30 micron	3.5kg

TPS Standard Spray Powder

Type	Application	Micron Size	Pack Size
TPS Standard Fine	Paper	15 micron	1kg
TPS Standard Medium	Paper/ Cartonboard	20 micron	1kg
TPS Standard Coarse	Paper/ Cartonboard	25 micron	1kg

TPS Snowtex® Cloth Wipes

Multi-purpose Snowtex® Cloth Wipes are outstanding for both pre-press and pressroom wiping needs. Snowtex® offers unique quick dry characteristics which are extremely important with today's low VOC solvents. Made from 100% rayon and containing no chemical binders, Snowtex® is extremely soft and absorbent. Available in two pre-folded sizes, a large shop roll size and a convenient pop-up dispenser.

Snowtex® Cloth Wipes are extremely soft and absorbent and dry quickly. They contain no chemical binders.

Size: 31 x 44cm 2 Rolls x 400 pieces 2 Rolls per Box

TPS Nubtex® Shop Cloths

Made from an advanced cloth material, Nubtex® combines the characteristics of cloth towels with the ease and convenience of disposable wipes.

Nubtex® is ideal for cleaning blankets, rollers and ink trays, as well as for all types of general cleanup. Available in 3 pre-folded sizes, a large shop roll size and a convenient pop-up dispenser.

Nubtex® Shop Cloths are strong and absorbent and will not scratch plates.

Size: 33 x 43cm 15 x 25 pieces 15 per Box

Size: 31 x 40cm 2 Rolls x 400 pieces 2 Rolls per Box

TPS Elixir Pre-saturated Washcloth

The cost-efficient solution for all ink and blanket cleaning requirements, TPS Elixir Pre-saturated Washcloths are compatible with many existing BaldwinImpact® pre-moistened cleaning systems and available for most web presses. The synthetic fabric contains NO wood pulp reducing the potential for lint left on the blanket after the cleaning cycle. The solvent used is custom synthesized for blanket cleaning applications, and contains significantly less solvent than other blanket cleaning systems.
